Health, Safety and Wellbeing Statement of Commitment

We believe:

The health, safety and wellbeing of the Red Cross family – our employees, members and others involved in our activities, lies at the heart of everything we do.

We commit to:

- Acting on and promoting values and behaviours that support our commitment and creating an environment where this is shared by everyone
- Empowering our people to be actively involved and have their say in the management of health, safety and wellbeing
- Identifying implementing and monitoring initiatives and programmes that actively promote the health, safety and wellbeing of our people
- Meeting our moral and legal obligations to keep our people healthy, safe and well
- Identifying, effectively managing and monitoring foreseeable risks to health, safety and wellbeing
- Providing and maintaining healthy and safe workplaces, work practices and equipment
- Providing the right resources, training and supervision to allow our people to work safely and promote wellbeing
- Ensuring incidents are investigated, the right action is taken and areas for improvement are identified and effected
- Supporting work based rehabilitation for injured and ill employees regardless of the cause
- Setting and reviewing targets to continually improve our health, safety and wellbeing practice and performance

We're all responsible:

Collectively and individually for understanding and taking responsibility for our own and the health safety and wellbeing of others by following health, safety and wellbeing procedures, reporting hazards and incidents and participating in health, safety and wellbeing training and initiatives.

DECEMBER 2017

Dr. Jenny McMahon
NATIONAL PRESIDENT

Niamh Lawless
SECRETARY GENERAL

'Healthy and Safe
for Humanity'
